Murray Darling Wetlands Ltd. was established in 2009 as an initiative of the NSW Murray Wetlands Working Group Inc. (Working Group), an award winning community-based wetland rehabilitation group. In 2012, the Company and the Working Group were merged and re-named the Murray Darling Wetlands Working Group Ltd. The Company is a not-for-profit organisation registered under the Australian Securities and Investments Commission as a charity. It has a Board of Directors and members from the wider community including scientists, landholders, conservationists, government, the Murray Darling Association and The Murray-Darling Freshwater Research Centre.

As a non-profit Company, Murray Darling Wetlands Working Group Ltd seeks corporate and public donations as well as donations of water for wetland and environmental uses.

The Company has ‘deductible gift recipient status’ and is listed on the Register of Environmental Organisations with the Federal Government.

Murray Darling Wetlands Working Group Ltd. is committed to building community support for wetland restoration, management and research, by linking corporate donations, management expertise and community participation in restoration projects.

The Board and membership include many leaders in wetland management and restoration and are attuned to modern irrigation practice.

Murray Darling Wetlands Working Group Ltd. has established a public fund for the specific purpose of supporting environmental objectives of the organisation.

Twenty Years of Experience:
- Develop partnerships with stakeholders and the broader community to restore and improve wetland management.
- Attract corporate and philanthropic support for wetland restoration and research projects.
- Develop cooperative wetland management arrangements between catchment management authorities and across State boundaries and agencies.
- Be a service provider with respect for wetlands, industry, Aboriginal values, CMAs and government agencies.
- Develop and implement environmental water monitoring
- Improve wetland management through adaptive and practical solutions.

Murray Darling Wetlands Working Group Ltd. has personnel with experience and expertise in wetland restoration and management, including:
- Moira Lake and Thoga Lagoon restoration
- delivery of 75,000 megalitres of water to more than 200 wetlands across two catchments
- wetland mapping and inventory
- database development and management
- engaging the community
- wetland research and monitoring
